Frequently Asked Questions

What does the software do?

The primary goal of JioSoft Money Manager is to simplify the process of tracking financial information. The software is an easy to use programme to help you keep track of where your money comes from and more importantly, where your money goes, in order to make better financial decisions for your future. JioSoft Money Manager enables you to balance your accounts, organise, manage and generate reports for your finances. It is also a great way to keep abreast of your financial net worth.

Does the software work on Windows 11?

Yes. The software will work on ALL versions of Windows 11.

Does the software work on Windows 10?

Yes. The software works on ALL versions of Windows 10. The software also works on ALL versions of Windows 8 and 8.1 and ALL versions of Windows 7.

Can I import data from Quicken?

Yes, A great many of our customers have successfully migrated from Quicken® with no problems. You will need to export your data as a QIF file then it can be easily imported into JioSoft Money Manager. The software has full instructions about importing data and an import wizard to guide you through the process. Also, our support team is always here to help if you need it.

Can I import data from MS Money & other programmes?

Yes, you can import data from Microsoft Money® using the JioSoft import wizard. You will need to export your data as a QIF file then it can be easily imported into JioSoft Money Manager. Data can also be imported from a large number of other accounting programmes.

Can I run different sets of accounts?

Yes absolutely. You can set up as many different sets of accounts as you wish. For example, you may want your personal finances in one set of accounts and your small business accounts in another. Alternatively, different members of your family can each have their own set of accounts. Each set of accounts can also be individually password protected.

Are there any annual fees to pay?

No, absolutely not. There are NO annual licence fees or subscription fees.

Can I install the software on more than one computer?

Yes. The software is licenced per installation and you are allowed to install the software on up to two computers belonging to you under the same license at no extra cost. Your accounts data can be transferred and synchronised between various computers.

What support do you provide?
